

## USEFUL RESOURCES FOR SILVER CITY CLIMATE RESILIENCE

Bulletin 164 — Climate Change in New Mexico Over the Next 50 Years: Impacts on Water Resources

<https://geoinfo.nmt.edu/publications/monographs/bulletins/164/>

U.S. Drought Monitor website, updated weekly

<https://droughtmonitor.unl.edu>

Silver City Sustainability Plan 2030 (published 2013)

<https://www.townofsilvercity.org/DocumentCenter/View/200/Silver-City-Sustainability-Plan-2030-PDF>

Ten Best Practices for Using Native Trees in Urban Environments to Improve Urban Climate Change Resilience, multiple resources with information that is Tucson focused, and also applicable to the southwest in general

<https://tucsoncleanandbeautiful.org/native-trees-for-tucson/>

Rainwater Harvesting for Drylands and Beyond, Brad Lancaster, has a lot of information at the website and also provides links for his books on water harvesting

<https://www.harvestingrainwater.com>

Urban tree threat response guidance for Arizona and New Mexico, website addressing insect, disease and environmental threats to urban trees

<https://www.urbantreethreatsaznm.org>

Wildfire Season in New Mexico, document focuses on preparedness and protection

[https://preparedness.nmsu.edu/documents/wildfire\\_agtab\\_2018.pdf](https://preparedness.nmsu.edu/documents/wildfire_agtab_2018.pdf)

Living with Wildfire Guide for Arizona, document contains guidelines on preparedness and on Firewise pruning

<https://dffm.az.gov/sites/default/files/media/Living%20With%20Wildfire%20Booklet%20-%20REVISED%202021.pdf>

New native tree website addressing 65 climate resilient southwest native trees and tree/shrubs for Arizona and New Mexico is under preparation; Don Graves will email the link when the website is active in March 2023
